## AILROAD FARM AGENT ADVOCATES USE OF KANRED

M. B. Oates Claims Variety Has Outyielded Others In Almost Every Vicinity-Believes It Should Be Tried In Every Wheat County in Northwest Texas-Mas Many Advantages

An article favoring the adoption of Kanred wheat by local farmers because of its high yield and other distinguished characteristics has been received by The Record from M. B. Oates, agricultural agent of the Fort Worth and Denver Railroad. Mr. Oates, who is well-known to local agriculturists. sets forth the virtues of this species of grain in the following:

"The past season Kanred wheat has outyielded other varieties in Foard county from three to five bushels per acre. In the section around Amarillo it has surpassed other varieties from other varieties. It is so promising that it ought to be tried in every wheat county in northwest Texas.

#### Product Of Station.

"Kanred wheat was first grown in 1906 by the Kansas Experiment Station. It is a selection from Turkey Red, therefore, the name Kanred. It is a hard winter wheat. For several years it was tried out on many Kansas farms and nine times out of ten it outvielded other varieties.

## **FUNERAL OF LOCAL** SOLDIER HERO TO **BE HELD SUNDAY**

Services For Albert E. Robinson Will Be Conducted From Baptist Tabernacle - Death of Young Patriot One of Most Gallant On Field Of Battle in

Sergeant Albert E. Roomson-Vernon's boy soldier hero-will be buried Sunday afternoon with full military honors in Eastview following the arrival of his body here last night at S conducted from the Baptist tabernacle cort and firing squad.

The enlistment and Geath of young Robinson is probably more familiar to county residents than that of any other soldier who went into the service from this section. The son of City Engineer and Mrs. A. J. Robinson, be received his education in Vernon schools, and was a sophomore in the high school and captain of the cadet corp there at the time or his enlistment. The Vernon post of the Ameri-BESIDE CALLING DOCKET SEVER. PARTY OF FIVE WILL SPEAK TO can Legion is named after the young

#### First To Enlist.

When the local company of troops was organized, the name of Robinson Officials of the Colorado-to-Gulf | 19 years old, was first on the roll. On purpose of setting before those locally the young patriot underwent an operainterested in their work the plans for tion which remedied this shortcoming. Upon his second application, he was turned down due to a toe which had been broken, but the offending member was removed, and after intercessions on the part of friends and through his own pleadings, Robinson was admitted

into the service. His death ocurred Occober 27, 1918 while leading his platoon to an objective in the Hun lines. Robinson had served four days and nights without rest, and after all but one of his company officers had been villed or disabled, the line sergeant succeeded in relieving an entire company of French under heavy artillery fire without sus-

#### COLLEGE OF INDUSTRIAL ARTS (State College for Women) DENTON, TEXAS

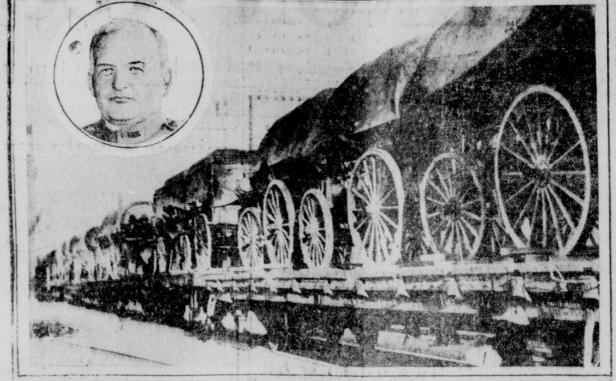

The College of Industrial Arts offers the following advantages to Texas girls: (1) a pleasant, healthful, and accessible location in the State of Texas. (2) an unimpeachable moral and religious environment, (3) freedom from distracting internal and external influences which tend to lower the moraic of the student body and the value of the work of the College, (4) a standard of living that discourages extravagance, and promotes a democratic spirit in keeping with sound economy and with the best American traditions, (5) courses of study that combine sound culture and accomplishment with preparation for practical, usefulliving; that chiefly keep in view the needs of the present and the future: and that are flexible enough to allow, within safe limits, conformity with the aptitudes and inclinations of the individual student, (6) a faculty of college and university trained specialists-men and women of maturity, scholarship and demonstrated teaching ability, (7) an administrative system that develops iniative, resourcefulness, and selfcontrol on the part of its students, and fosters the highest ideals of character and conduct.

It is a College of the first class and gives literary, technical, and vocational training of the best quality, designed to develop mental discipline, social culture, spiritual vision, and efficiency. It conters the degrees of bachelor of arts, bachelor of science, bachelor of music, bacheflor of business administration and bachelor of literary interpretation; awards vocational diplomas and certificates, and issues teacher's State

The next session of the College opens Tuesday, September 20, 1921.

## Remembrance In Business

It does a man's heart good to discover that this is a far better and kindlier business world than he had thought it could be. He fairly radiates warm gratitude and good will.

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.

## AILROAD FARM AGENT ADVOCATES USE OF KANRED

M. B. Oates Claims Variety Has Outyielded Others In Almost Every Vicinity-Believes It Should Be Tried In Every Wheat County in Northwest Texas-Mas Many Advantages

An article favoring the adoption of Kanred wheat by local farmers because of its high yield and other distinguished characteristics has been received by The Record from M. B. Oates, agricultural agent of the Fort Worth and Denver Railroad. Mr. Oates, who is well-known to local agriculturists. sets forth the virtues of this species of grain in the following:

"The past season Kanred wheat has outyielded other varieties in Foard county from three to five bushels per acre. In the section around Amarillo it has surpassed other varieties from other varieties. It is so promising that it ought to be tried in every wheat county in northwest Texas.

#### Product Of Station.

"Kanred wheat was first grown in 1906 by the Kansas Experiment Station. It is a selection from Turkey Red, therefore, the name Kanred. It is a hard winter wheat. For several years it was tried out on many Kansas farms and nine times out of ten it outyielded other varieties.

of Kanred wheat are high yields, high milling quality, hardiness, heavy stooling, resistance to drouth and rust and stiffness of straw. The last, stiffness of straw, is important because it Also, there is less loss from sharrering. Kanred is injured less by winter killthan our varieties.

## Is Carefully Selected.

## To Attend Presbytery.

WHERE WILL THEY GO FROM HERE?

How the times change. In 1880 they used to think that the costume work or Marie Kilroy, the mermaid, on the extreme left was immed st. Ten years later the daring damsels were wearing the costume which the second young lady, Miss Peggy Chapman, is wearing. In y900 the bathing costaine worn by Miss Josephine Charles was the subject of auch discussion in press and pulpit. Miss Fay Marbe shows the costume of 1910, which caused quite a ripple in its day. But it is the garb of Miss Ethel Charles, the young lady of 1921, that has incit ed the Legislatures to action.

## **FUNERAL OF LOCAL** SOLDIER HERO TO **BE HELD SUNDAY**

Services For Albert E. Robinson Will Be Conducted From Baptist Tabernacle - Death of Young Patriot One of Most Gallant On Field Of Battle in France.

Sergeant Albert E. Roomson-Vernon's boy soldier hero-will be buried Sunday afternoon with full military honors in Eastview following the arrival of his body here last night at 8 o'clock from France. Services will be conducted from the Baptist tabernacle at 3 o'clock, and the local post of the American Legion will provide an es cort and firing squad.

The enlistment and Geath of young Robinson is probably more familiar to county residents than that of any vice from this section. The son of City Engineer and Mrs. A. J. Robinson, he received his education in Vernon schools, and was a sophomore in the high school and captain of the cadet corp there at the time we his enlistment. The Vernon post of the American Legion is named after the young

## COLLEGE OF INDUSTRIAL ARTS (State College for Women) DENTON, TEXAS

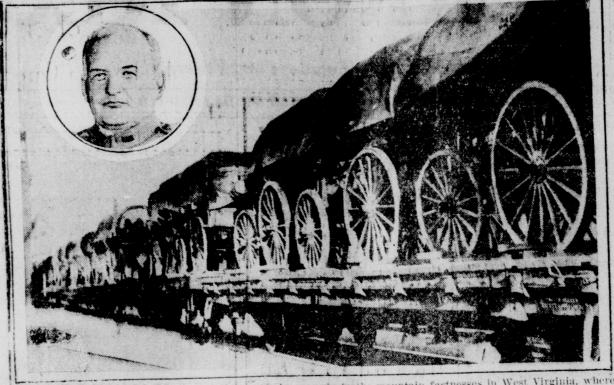

The College of Industrial Arts offers the following advantages to Texas girls: (1) a pleasant, healthful, and accessible location in the State of Texas. (2) an unimpeachable moral and religious environment, (3) freedom from distracting internal and external influences which tend to lower the morais of the student body and the value of the work of the College. (4) a standard of living that discourages extravagance, and promotes a democratic spirit in keeping with sound economy and with the best American traditions, (5) courses of study that combine sound culture and accomplishment with preparation for practical, useful living; that chiefly keep in view the needs of the present and the future; and that are flexible enough to allow, within safe limits, conformity with the aptitudes and inclinations of the individual student. (6) a faculty of college and university trained specialists-men and women of maturity, scholarship and demonstrated teaching ability, (7) an administrative system that develops iniafive, resourcefulness, and selfcontrol on the part of its students, and fosters the highest ideals of character and conduct.

It is a College of the first class and gives literary, technical, and vocational training of the best quality, designed to develop mental discipline, social culture, spiritual vision, and efficiency. It confers the de-grees of bachelor of arts, bachelor of science, bachelor of music, bachelor of business administration and bachelor of literary interpretation; awards vocational diplomas and certificates, and issues teacher's State

or, "will make war too t wrible for nations to engage in it." has been it vented by John Temple, a British subject now residing in the United States. The invention is now in the form of a small rivetting gun, which was demon strated in New York before a group of distinguished scientists, inventors and ordinance experts. Its proposed giant counterpart will employ the same principle used in the small rivetting gun; and the mouster war weapon, the ex perts declare, will be able to hurl a five-ton projectile from 200 to 300 miles. The rivetting gan actually fires steel slugs into steel plates. It is smokeless and almost noiseless. With the new rivetting gun it is possible to rivet bolts into a ship's hull without dry-docking the vessel, as the rivetting can be done by a driver under water.

How to protect America's chemical industry, then, becomes one of the Nation's paramount questions. Germany is trying hard to control the American markets as completely as she controlled them before the war. To prevent this an extension of the war-time selective embargo such as has been enacted by England, France, Italy and Japan, i advocated, at least until American plants have developed the full requirements necessary for national defense

## TIME TO GO AHEAD.

A temporary slump in the cotton market after the sensational rise of the past several days was to be expected. It would be impossible, with such opportunities for big and quick profits, to prevent a selling movement of considerable proporcions on the market and that explains the slump fully. It was purely a profit-taking movement. The thing not to be lost sight of is that the high prices achieved are fully justified by market conditions, and the revival of business which this promises is bound to come, and is, in fact, in progress,

Twenty cent cotton and better is a fact. There is no reason why a single bale of cotton of the Texas crop or that has been held over from last year. and that grades as good as middling, should sell for less than twenty cents a pound, and there is every reason to believe that it will sell much higher

The average business man has not awakened to what that means. It first of all, that the large carryom last year's crop, much of wned by the banks and repon credit, is going to be sold

ate the indebtedness against it. It PERSIAN MINISTER TO means also that the farmer will be enabled to pay his debts to a very great extent, and thus release much Suford Q. Brown .... ## The Story of Our States

By JONATHAN BRACE VII.-MARYLAND

NDIAN arrows played founding oi Maryland. Lord Baltimore had

interested in the London company which was financially responsible for the settlement of Virginia. He became so enthusiastic over the possibilities in the new colonies that he desired to found a colony himself. After exploring the country just north of the Potomac he persuaded King Charles I to grant him this territory. In honor of the queen, Henrietta Maria, this new colony was called Maryland.

The payment for this grant was specified as two Indian arrows a year, together with a fifth part of all precious metals which might be mined. As the colony produced no gold or silver the cost of Maryland amounted to only the two arrows each year, and Lord Baltimore became to all intents and purposes an independent sovereign. As a matter of fact the charter was not issued until just after the death of Lord Baltimore, but as the deed was hereditary it descended to the second Lord Baltimore, under whom the first settlement was made at St. Mary's in 1634. This hereditary monarchy continued in force until, under the sixth Lord Baltimore, the Declaration of Independence in 1776 brought it to

an end. In 1788 Maryland adopted the Constitution and took its place as the seventh state in the Its area totals 12,327 square miles, and it is thickly populated, so that Maryland is entitled to eight presidential

generally spaking, as prosperous as the Vernon Shrine Club. merchants and are not receiving as much income from their investments ous points, loudly praising the Vernor purchasers

#### Neglect Farm Topics.

Attention was called to the general tendency among local newspaper men to print very little news or agricultural activities and it was suggested that possibly this is due to the editor's contheir agricultural constituents as well lins. as they might," said the speaker. The agents were urged to succurage frevated by the farmers, thereby giving rents, Mr. and Mrs. E. M. Rogers. him opportunity to become familiar with their problems and with oppor tunity for agricultural advancement Mention was made of the six-week agricultural courses held at the A. and Itc Adv. M. College during each summer, which, if the editors could be meuced to attend, would enable them to render much better service to the agricultural intersts of their community.

"No county newspaper is functioning properly until more than fifty per cent of each issue is devoted to agricultural topics, and obviously more than half the advertising ought to be agricultural advertising, ' said the speaker.

Compliment Record Advertisement. Commendation from Alfred Decker and Cohn, makers of Soctety Brand Clothes, on an advertisement appearing in the August 26 issue of The Vernon Record has been received by Brunson and Williams, local clothiers. The letter states that the firm reviewed the advertisement with much interest, and that the general layout is very good and cannot but attract the attention of everyone who picked up the page on which it appeared. The communication states further that a repetition of ads of this character will help build up a very favorable atmosphere in connection with the store, and asks that

## **VERNON MISSIONARY** FINDS JOY IN HER CHINESE SERVICE

Miss Blanche Groves Sees Spirit of Jesus All About Her In Far-Off Land-Says Country Is One off Flowers-Is Devoted To School Work and Finds Interest In Studying Language.

remembered by her many friends here written Mr. and Mrs. C. M. Blair cone cerning some of her experiences while being able to serve the people among

loved ones and friends, just the feeling of being so far away really burts and yet deeper than all this turt is the joy of service here.

#### Happiest Year Of Life.

In many respects this has been the happiest year of my live. I am so much in love with China and the

Of course we have the dark side as especially true when I went on the schools. However most of my time has operating table last fall for appendi- been given to language study for one citis and had such a remarkably quick is so belpless here until he can speak recovery, also found it true this Chinese. I find the language abso spring when I had typhoto. At present lutely fascinating and I love to speak a day in my life for I am so much stronger than I have ever been and gain every day. I have so much to be the Chinese and my work here for thankful for here.

ally blessed with flowers and fruit Vernon in this section. China has been well called the "Flowery Kingdom" friends and my darling students there and Soochow the "Venice of China." I so much wanted to see that class We have so many canals through Soochow-can go anywhere over the wonderful class. city or surrounding country by boat.

Quaint Narrow Streets.

"Soochow is a real Chinese city Average width of the streets is from tell me about everybody and every three to ten feet, so you see we can thing in Vernon." never have automobiles in Soochow. Instead we have sedan chairs carried by two men or a Riksha pulled by one man. I walk usually.

they support a family on that is more Robinson. than I can see. Of course rice is their principal food and is very cheap here

## Wishes For Oil Well.

salary is from \$14 to \$25 per month. I have never had a reat conception of poverty until I came to China and say how the poor class of Chinese live. The hardest thing I have had to face in China has been the many calls for financial helps that I can't possibly meet. It hurts to have to turn a boy or girl away who wants to go to a Christian school for an education and yet its impossible to meet half the calls we have. I surely have wished for an oil well since I have been here.

"The famine did not reach this far south for which we are thankful. It was beautiful to see the spirit of Christ demonstrated in the lives of the Christian Chinese in Soochow as Even though your car may seem to be they went out collecting funds and running all right now, it would be clothing to send to the famine suffers good policy to let us look it over care devoted followers of Jesus after they accept Christianity. It's really an oiling and general overhauling will not inspiration yet sad to see these deat do it good. It usually does. Chinese women hobbling along on their feet that were bound in infancy.

aboard the S. S. Olympic, on her way

to church with their Bibles under their arms. To me that's the spirit of devotion and I love to see n.

#### Likes School Life.

"School work here is so evangelistic in its nature. I am so contented and well as the bright side here but I fin I happy here and I simply adore these Jesus really meant it when He said students. I have taught some in Well "Lo I am with you always even unto Ling girl's school and Yates Academy the end of the world." I found this for boys. Both are our mission

#### Has Missed Friends Here.

"Well I could rave on all day abou" surely am happy to be here but now "This is a beautiful country, especi- I must ask you a little about dear old

## Remembrance In Business I

It does a man's heart good to discover that this is a far better and kindlier business world than he had thought it could be. He fairly radiates warm gratitude and good will.

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.

## AILROAD FARM AGENT ADVOCATES USE OF KANRED

M. B. Oates Claims Variety Has Outvielded Others In Almost Every Vicinity-Believes It Should Be Tried In Every Wheat County in Northwest Texas—Mas Many Advantages

An article fevoring the adoption of Kanred wheat by local farmers because of its high yield and other distinguished characteristics has been received by The Record from M. B. Oates, agricultural agent of the Fort Worth and Denver Railroad. Mr. Oates, who is well-known to local agriculturists. sets forth the virtues of this species of grain in the following:

"The past season Kanred wheat has outyielded other varieties in Foard county from three to five bushels per acre. In the section around Amarillo it has surpassed other varieties from three to five bushels and in almost every instance it has at least equalled other varieties. It is so promising that it ought to be tried in every wheat county in northwest Texas.

#### Product Of Station.

"Kanred wheat was first grown in 1906 by the Kansas Experiment Sta-It is a selection from Turkey Red, therefore, the name Kanred. It is a hard winter wheat. Yor several years it was tried out on many Kansas farms and nine times out of ten i outyielded other varieties.

of Kanred wheat are high yields, high In addition to this will be the road and milling quality, hardiness, heavy stooling, resistance to drouth and rust, and stiffness of straw. The last, stiffness of straw, is important because it year 1921-1922 was fixed Tuesday at heavily that it may be seeded thinner

### COLLEGE OF INDUSTRIAL ARTS (State College for Women)

DENTON, TEXAS

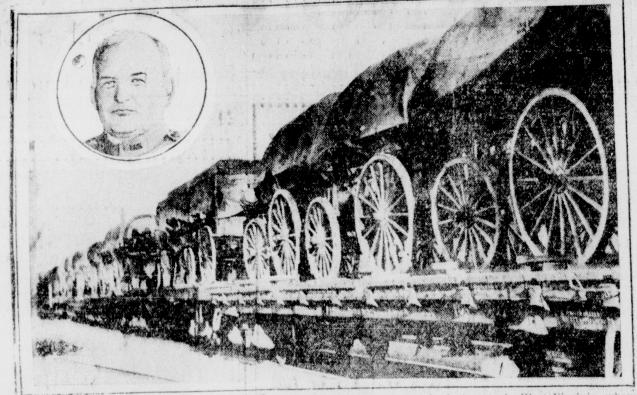

The College of Industrial Arts offers the following advantages to Texas girls: (1) a pleasant, healthful, and accessible location in the State of Texas, (2) an unimpeachable moral and religious environment. (3) freedom from distracting internal and external influences which tend to lower the morale of the student body and the value of the work of the College, (4) a standard of living that discourages extravagance, and premotes a democratic spirit in keeping with sound economy and with the best American traditions, (5) courses of study that combine sound culture and accomplishment with preparation for practical, useful living: that chiefly keep in view the needs of the present and the future; and that are flexible enough to allow, within safe limits, conformity with the aptitudes and inclinations of the individual student, (6) a faculty of college and university trained specialists-men and women of maturity, scholarship and demonstrated teaching ability, (7) an administrative system that develops iniative, resourcefulness, and selfcontrol on the part of its students, and fosters the highest ideals of character and conduct.

It is a College of the first class and gives literary, technical, and vocational training of the best quality, designed to develop mental discipline, social culture, spiritual vision, and efficiency. It conters the degrees of bachelor of arts, bachelor of science, bachelor of music, bachefor of business administration and bachelor of literary interpretation; gwards vocational diplomas and certificates, and issues teacher's State

Texas Public Service Co.

BEWARE OF FIRES

A number of fires recently have been caus-

ed by placing pennies in the socket where

fuse plugs burn out. Recently we find

some one is cutting the brass from around

the plug and bending one end against the

back of the fuse. In case of a short circuit

this will invariably cause fire. Fuse plugs

are for your protection. Do not use these

dangerous substitutes.

Summer Feeding Pays

Eggs pay any time, but when other flocks fall off yours pay best. Feed plenty of protein now. Hens need it for eggs and for the coming moult. If they don't get enough, they will rob their body-tissues to get it. Then it will take twice the feed to get them back.

> Keep Purina on the Job

It's rich in egg-making, bodybuilding protein. Get a shorter moult and more winter eggs.

More Eggs or Money Back lust step to the telephone and ack usabout this guarantee, NOW.

"Educated Chinese teachers average salary is from \$14 to \$25 per month. I have never had a reat conception of poverty until I came to China and say, how the poor class of Chinese live. The hardest thing I have had to face in China has been the many calls for financial help that I can't possibly meet. It hurts to have to turn a boy or girl away who wants to go to a Christian school for an education and yet its impossible to meet half the calls we have. I surely have wished for an oil well since I have been here.

"The famine did not reach this far south for which we are thankful. It was beautiful to see the spirit of Christ demonstrated in the lives of the Christian Chinese in Soochow as Even though your car may seem to be they went out collecting funds and running all right now, it would be clothing to send to the famine suffers good policy to let us look it over care devoted followers of Jesus after they fully and see if our expert cleaning, accept Christianity. It's really an oiling and general overhauling will not inspiration yet sad to see these deat do it good. It usually does. Chinese women hobbling along on their feet that were bound in infancy.

## Remembrance in

It does a man's heart good to discover that this is a far better and kindlier business world than he had thought it could be. He fairly radiates warm gratitude and

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.
